| Mumbai, India | *Graphic & Website designer* |

Current Job Responsibilty

- I possess proficient skills in HTML development, with a focus on clean and structured coding practices.
- Translated design mockups into pixel-perfect, cross-browser compatible HTML, CSS, and JavaScript code.
- Implemented responsive design principles to create seamless experiences across various devices and screen sizes.
- Optimized web assets and code to improve page load times and overall performance.
- Conducted rigorous testing and debugging to identify and resolve issues, ensuring the reliability and stability of the final product.
- Utilized version control systems (e.g., Git) to manage and track changes to the codebase, facilitating collaboration and ensuring code integrity.
- Experienced in AEM content authoring, adept at creating and managing content within Adobe Experience Manager's interface, and knowledgeable in workflows, permissions, templates, and components.
- Collaborated closely with designers, back-end developers, and other stakeholders to align with project requirements and goals.
